

Product Number: 4025

**3M™ Conductive Hinged Container
7X5X1/2**

3M Hinged Containers are made from injection-molded plastic, and are noncorrosive and lightweight. The containers feature molded pin hinges that provide better security and reliability than traditional snap hinges.

Additional Information:

Static-sensitive devices can be transported in these containers which provide protection from direct static discharges as well as from static fields from charged personnel and materials.

3M Containers are injection-molded in a variety of shapes and sizes.
