

Product Number: 8253

3M™ Steri-Lok™ Polyethylene Bags

Polyethylene bags for EO sterilization; 12 inch x 15 inch (30.5cm x 38.1cm), 500 bags/case

Additional Information:

Provides a breathable barrier which allows ethylene oxide to permeate during the sterilization process while prohibiting microbial penetration during handling and storage after sterilization.

3M Id : 70-2182-5302-2
