

80mm Fan Filter Media, 30ppi SC80-M30/5

The 30ppi [fan filter media](#) for 80mm cabinet cooling fans provide the best protection from dust buildup. Preventing dust building up on your cabinet cooling fan is important for keeping the cooling fan in top working condition. When your cabinet cooling fan is functioning properly, important electronics and appliances are protected from overheating. These polyurethane fan filter media are sold in packs of five and available at discount prices when bought in bulk. You can also find our high quality fan filter media included in our cabinet cooling fan kits.
