Product Number: YC-110R

Hand Crimping Tool

The YC-110R is a ratchet style handtool, designed specifically to crimp our loose piece SXH-001T-P0.6 contact.

Specifications:

- Ratchet mechanism for crimp conformation
- Precision ground dies
- Safe operation
- 2 crimping sections for 24awg and 26awg only

For crimping 22awg and 24awg you will require our YC-111R Hand Tool.

Note:

(1) These tools are for prototype tooling or repair.

(2) YC tool has two crimping sections (A and B). Be sure to check applicable wires before use. Since the dies are fixed, the crimping height cannot be adjusted. Therefore, some of the applicable wires described in this catalog may not be crimped properly. Before use, check for proper crimping (such as tensile strength, terminal/contact deformation).

(3) These tools are not applicable to 2-wire crimping.

(4) When hand crimping board-in terminals (SAN, SCN, SDN, SGN, SIN, SJN, SZN), care should be taken not to contaminate the solder tails of the terminals, as with greasy or oily fingers. If a solder problem arises, some cleaning of the tips of the terminal is advisable.

(5) WC and JUC hand tools are provided by J.S.T.(U.K.) LTD. and contact them about the details of these hand tools.

Dimensions:

(W x L) 59X224mm (2.3" x 8.8")

Dimensions:

(W x L) 70X296mm (2.8" x 11.7")
