### Electrical Specifications

#### Installation & Application Notes:

##### Section I – Physical Characteristics

- 1.1 LED Driver shall be installed inside an electrical enclosure
- 1.2 Wiring inside electrical enclosure shall comply with 600V/105°C rating or higher.

##### Section II – Performance

- 2.1 LED Driver has a rated lifetime of 50,000 hours @ TC ≤80°C.
- 2.2 LED Driver tolerates sustained open circuit and short circuit output conditions without damage.
- 2.3 LED Driver maximum allowable case temperature is 80°C – see product label for measurement location.
- 2.4 LED Driver reduces output power to LEDs if its case temperature exceeds >80°C –thermal protection and eventually reduces output current to zero.

##### Section III – UL Conditions of Acceptability (File E321253)

When installed in the end product, consideration shall be given to the following:

- 3.1 The maximum available output electrical parameters of the driver met the Class 2 – Inherently Limited specified in UL 1310.
- 3.2 The maximum available output current and power parameters of the driver met the limitation for Class 2 Inherently limited in accordance with the Canadian Standard CSA C22.2 No. 223.
- 3.3 The primary and secondary terminal blocks are R/C (XCFR2/XCFR8) suitable for field wiring.
- 3.4 The Driver has been evaluated for use in “Dry” and “Damp” locations.
- 3.5 When the driver is installed in the end-use application, the manufacturer has specified the measured case temperature at the (Tc) location specified on the marking label must not exceed 80°C.
- 3.6 The equipment shall be installed in compliance with the enclosure, mounting, spacing, casualty and segregation requirements of the end-product application.
- 3.7 The maximum measured leakage current using leakage current tester by Simpson Model 228 was 0.73 mA at 277V input and 0.28 mA at 120V input.
- 3.8 The 0-10V dimming circuit has been evaluated as a Class 2 output.
- 3.9 The enclosure case of the driver must be connected to earth ground when installed in the end-use application.
