

Good Things Do Come in Small Packages!

Product Facts

- **Lightweight Power Unit** — 1.5 lb [0.7 kg]
- **Small Size Power Unit** — 5.75 Length [146.5 cm]
- **Interchangeable Tool Holders and Crimp Heads**
- **Ratchet control provides complete crimp cycle** — helps eliminate partial crimps
- **A CE mark adjacent to a crimping head or adapter part number indicates it conforms to European Union Directives in hand-held applications**
- **Produced under a Quality Management System certified to ISO 9001**

A copy of the certificate is available upon request.

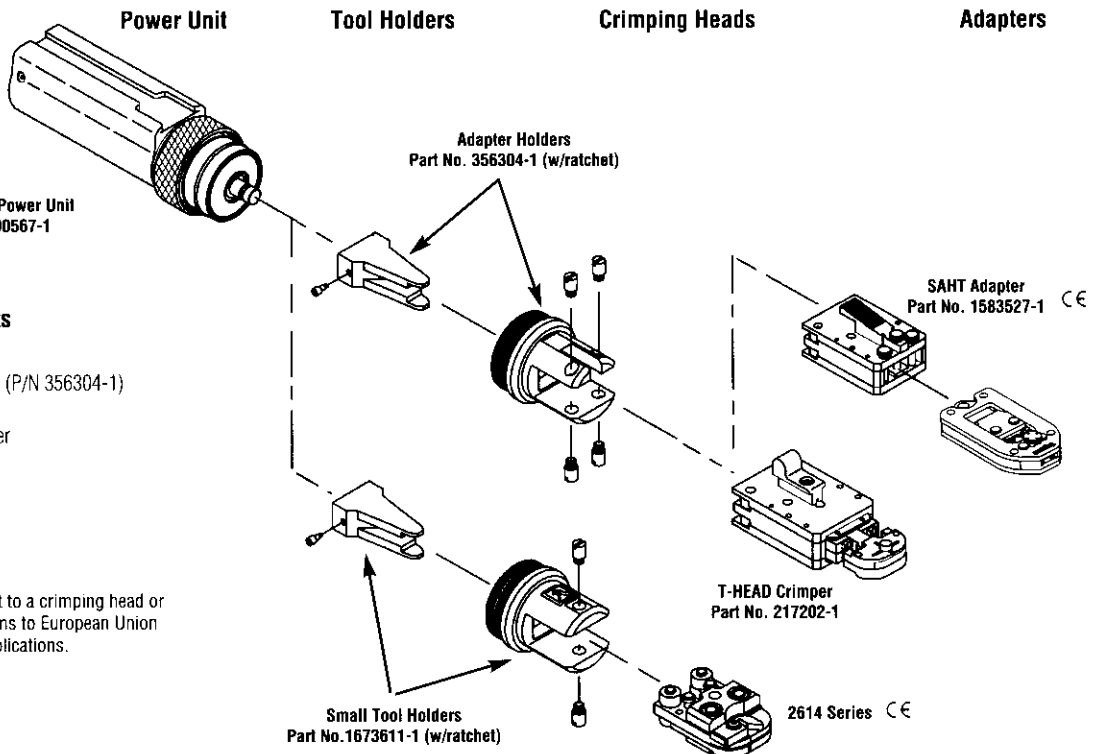

The new micro-pneumatic power unit provides minimal weight and minimal tool size, with maximum production. The power unit is compatible with the

small tool and adapter holders used in the 6-26 system. Only available in a hand actuated version. This unit and compatible heads will terminate

26-14 AWG products, with the exception of the SOLISTRAND head combination, which crimps 22-10 AWG combinations.

A basic Micro Pneumatic Tool System requires a power unit, a tool holder and a head assembly.
