

TYPE BST Self Adhesive Marking Strips

Inventory Check

When locating connector, allow 0.5 mm clearance around it for process-induced variations.

Material

Polyester
 Temperature Resistance: , approximately 80°C (176°F)

Description

The BST marking strips are self-adhesive and resist most common PC board cleaning processes. The black text is printed on a silver polyester base and protected with a clear Mylar coating. Note that these strips are marked consecutively with the numbering sequence starting with the numeral 1 in the left-most position and ending with the last pole number on the right. Each sheet has 10 BST strips.

- Consecutively numbered
